

DAI Technology Capabilities

DAI Technologies (DAI) and its partners provides support for Federal DoD, local and state governments to meet their critical and complex requirements. DAI is a woman owned small business and DAI's capabilities include Subject Matter Expertise (SME), SAP Functional, SAP Technical, Training, and Site Support for DoD SAP systems such as LMP, GCSS-ARMY, GFEBs, AESIP, and Navy ERP. Our experience includes US Army and US Navy implementations both in the US and overseas at both CONUS and OCONUS sites. Our principal consultants have a combined total of over

90 years of experience in DoD budget/financial management, Logistics, and Supply processes, with our consultants averaging over 15 years with SAP and Department of Defense systems. Our team possesses a unique combination of Army, Navy and DoD systems and Finance/Logistics experience that allow us to help our clients enhance their performance so they may better benefit our communities and workforce. We have a staff of experienced personnel that can guide our clients into the future allowing them to achieve the benefits of modernization.

Capabilities and Core Competencies

Subject Matter Experts Statement

Our team has Subject Matter Experts (SMEs) who can guide our clients through an ERP implementation and deployment. These individuals are experienced in both Finance/Budget and Logistics/Supply. They understand the systems of the Army such as: SOMARDS, STANFINS, DPAS, CCSS, SDS, HAS, PCMS, PowerTrack, MOCAS, AXOL, DTS, DCPS, DMOPS, LIW, STAMIS (PBUSE, SARSS, and SAMS), eMIL-PO, and ATAPPS. They also have knowledge of

the modernized ERP based systems to include LMP, GCSS-ARMY, AESIP and GFEBs. They are versed in the ARFORGEN model, National/Depot operations, budgeting and execution (AWCF, General Fund, Customer Funded), and the Tactical ARMY. Our SMEs are able to provide support for requirements gathering analysis, testing, data cleansing, deployment, and site support.

SAP Functional

Our SAP Functional resources are very strong with an average of 12 years of SAP configuration, requirements gathering analysis, testing, and implementation. They are versed in the ASAP framework and know how to bring value to your SAP implementation. Our functional

consultants have both strong SAP knowledge and DOD business experience. From the functions of the G8/Resource Managers to the G4/Logistics, they have worked in all aspects of the SALE/SAFE architecture and are ready to help the ARMY realize their goals.

“Our partnership with DAI reduced our costs and increased efficiency.”

SAP Technical

Our SAP Technical consultants bring to the table ABAP, Basis, Security, PI, and BI at a world class level. Many of them have worked in the public sector on DOD projects since 1999. This allows them to not only have a strong technical background but

be familiar with the inner workings of the modernized systems. They have been involved in data migration, upgrades, and systematic clean up based on business rules provided by the data object owners.

Site Support/Training

Our Training team has experience in providing world class training at both the ARMY and NAVY. This includes various delivery formats and methods to include: online, instructor lead, and train the trainer. They have also provided support for Shared Demonstration Labs (SDL), Business

Design Workshops (BDW), Knowledge Transfer (KT) sessions, and DCO sessions. We have provided pre and post go-live support to sites preparing to receive new technology. Our onsite support has provided help in training, change management, data cleansing, SAP Support, and role mapping.
